Pedestrian Sign

PBA - 1030
Extension

PBA - 1030ADA

The PBA-1030ADA was specifically designed to fit the 9" X 15" Pedestrian Signs. The extension piece is easily attached to the PBA - 1020-1 sign frame with use of guides and stainless steel hardware. The popular GTE Corp. PB-3-ADA-2 pedestrian pushbuttons are mounted to the sign frame and are easily removable, if desired. Adjustable pole guides allow adaptation to many different diameter poles.

Please specify powder-coated finish when ordering.
