

SPAN WIRE CLAMP

SWC-325F - Cast Iron

Cast Iron Construction

- *Cast Ductile Iron Construction; Stronger than Aluminum!*
- *65-45-12 Ductile Iron*
- *“U” Bolts and 5/8” Clevis Pin Available in Stainless or Plated Steel*
- *Job-Designed for Quicker Installation*
- *Hot-Dip Galvanized or Powder-Coated Finish*

General Traffic Equipment Corp's SWC-325F is a superior strength alternative for cast aluminum clamps and with the addition of hot-dip galvanized finish, will retain corrosion resistance for many years. The SWC-325F will adapt easily to any wire entrance head or balance adjuster. The clamp accommodates up to 5/8" span wire. Standard clevis pin is 5/8" diameter.
